## Climate IP LEDBAY

Industrial

## KEY FEATURES

Compact, lightweight sleek design with powder coated steel body and geartray.

Utilising the very latest in LED Technology with Philips Fortimo Boards |Xitanium Drivers and Trustsight Emergency achieving high lumen efficacy up to 150lm/w.

A choice of Optical Lens:
Wide | Narrow | High-Rack to suit all applications.

## APPLICATIONS

Warehouse, Distribution and Logistics facilities. Sports and Leisure complexes, 'out-of-town' retail and Automotive Repair.

## DESCRIPTION

An energy efficient, professional, manufactured high level luminaire IP65

Designed to replace traditional Hi-bay|Low-bay and T5 luminaires whilst enjoying energy savings in excess of 60% of existing luminaires.

Presence & Daylight sensors available to further increase savings as well as Connected Lighting (I.o.T) Systems available.
